

Who is Thomas Duryea?

Founded in 2000, Thomas Duryea Consulting (TD) design, plan, implement and manage innovative, world class IT infrastructure solutions.

We inspire change, enable growth and deliver secure, agile and dependable IT solutions. We position our clients to better serve their customers and consistently outperform their competitors, across a range of industry sectors, including:

- Financial Services
- Manufacturing
- Retail
- Transport
- Healthcare
- Local, State & Federal Government
- Entertainment

Our culture fosters innovation. We approach your IT challenges with unparalleled spirit and integrity. Our engineers, consultants, architects, project managers, and trainers are disciplined, energetic and personable. We attract, develop, and retain exceptional people.

Working closely with our clients, as their strategic infrastructure partner, we utilise best practice and rigorous, proven methodologies; exceeding delivery expectations.

Our ongoing success is a testament to our people's abilities and their shared commitment to our core mission and values.

Our Success

Thomas Duryea is best defined by the outcomes we achieve in partnership with our clients. Some recent successes include:

- The seamless integration and transformation of an international acquisition for one of the world's largest manufacturers.
- Achieving significant cost savings at a leading government agency through innovative implementation of an advanced data centre consolidation and management strategy.
- The complete transformation and automation of desktops and servers for one of Australia's best known brands, delivering significant gains through operational efficiencies and centralised management methodologies.

TD was an early adopter of VMware's virtualisation technology, which has led to great success for our clients. We have successfully reduced 1000 servers down to 100. This has saved our customers 11,250 tonnes of CO2, \$4.5m in server hardware costs, plus \$1.1m in server related power costs.

Recent Awards

- | | |
|---|--|
| 2008 VMware 'Partner of the Year' | 2008 Deloitte 'Tech Fast 50' [2 nd place] |
